

2 Different Ways To Do a French Manicure

"The simpler standard French Manicure uses a more Sheer Pink on the Nail-Bed, but... when you want to do a French Manicure with a Darker or more Opaque Pink on the Nail-Bed, the process is a little more intricate, but it looks great and it is worth perfecting."

How To Do a French Manicure with a Darker or more Opaque Pink on the Nail-Bed:

Secret: Let each coat of Polish Dry between coats

1. Apply your Tammy Taylor Base coat and let dry 30 seconds.
2. Polish the entire Nail with your favorite Tammy Taylor PINK Polish let dry 60 seconds (so your polish is dry to the touch, which makes it easier when you apply your White Polish).

How To Do a standard French Manicure using a more Sheer Pink:

Secret: Let each coat of Polish Dry between coats

1. Apply your Tammy Taylor Base coat and let dry 30 seconds.
2. Polish the Free-Edge of your Nail with Tammy Taylor California French White and let dry 30-60 seconds (this will help eliminate polish from smearing).
3. Polish the entire Nail with your favorite Tammy Taylor SHEER Polish let dry 30 seconds.
4. Apply Tammy Taylor "Z-Coat" Non-Yellowing Top Coat

Tip: Apply a fresh coat of your Tammy Taylor "Z-Coat" every 3-days, to keep your Tammy Taylor "French Manicure" - Chip-free, Shiny and Perfect.
