We Offer You All of This, and So much More! Our products have been proven in Professional Salons for over 26 years.

Give Us a Chance to Prove Ourselves to You.

Tammy Taylor Acrylic Nail Product does not get brittle nor crystallize.

- **The chemical bond between the Tammy Taylor Acrylic and the Tammy Taylor Primer create adhesion so Tammy Taylor Nails do not lift.**
- **The Tammy Taylor Nail Liquid and the Nail Powder have cross linkers that weave together, to form tremendous strength to "eliminate" breaking.**
- **The Tammy Taylor Acrylic resists yellowing because of the added UVA and UVB inhibitors.**
- **Tammy Taylor Acrylic Nails have a hard surface, which means they will resist staining, and they are easier to file.**

"I would Love for you to try Tammy Taylor Nail Products and become a Tammy Taylor Nail Technician.

Become part of the Tammy Taylor Team today."
