Dreaming and Planning is very important to building a successful career.

### However...

Thinking, that when these Dreams and Plans come true, you will be happier with your career than you are right now, will probably "stop" you from **enjoying your job today**.

**Don't wait** for your Dream Job or a Boost in your Business, or a Change in the economy to **be happy** with what you are doing **today**.

Because...

What you are doing today is probably Yesterday's Dreams and Plans, which have come true.

### Today is our Day to Enjoy what we are doing right now.

I have heard many people over the years say:

"When I get my business making a profit I will be happy"

Or,

"When I can get my bills paid off I will be happy"

Or,

"When I get more established in my career I will be happy"

### But...

Once these Dreams and Plans did come true, they were "not" any happier than they were before.

### When we can ENJOY TODAY FIRST...

Then make Plans, and Dream about the future SECOND, we will have MORE SUCCESSFUL Careers and Businesses.

Because, **Enjoying where you are RIGHT NOW**, overflows into everything you do.

You will be MORE PASSIONATE, have MORE ENERGY, MORE CREATIVITY and MORE PERSISTANCE, which are all the things we need a lot of, to be MORE SUCCESSFUL.

So...

The Secret to making all your Dreams and your Plans come true is to **ENJOY TODAY exactly where you are right now**.

**Have a FUN 4th of July weekend!**
