

Maintenance for your Acrylic Nails

Doing a little at-home nail maintenance is fun, and your nails will always look beautiful!

Tammy Taylor

The Must-Do "Daily" Routine –

- Apply Tammy Taylor Conditioning Cuticle Oil to your nails 1-3 times a day.
- This promotes healthy natural nail growth, even while wearing Nail Enhancements; the Conditioning Cuticle Oil eliminates the dry cracked skin and hangnails around the cuticle, which can lead to picking and/or biting.
- **Note:** picking and/or biting can cause lifting
- By keeping a bottle of Tammy Taylor Conditioning Cuticle Oil in all the areas where you might be sitting idle for a few minutes, will help you remember to apply your Cuticle Oil.
- **Ideas:** in your purse, at your desk, by the television, by the phone etc...

Keep your "Pink & White" Acrylic Nails beautiful (Maintenance Routine) - (6 Steps):

Note: Doing a little Maintenance on your nails once a week, will prevent your nails from getting fill lines, lifting and yellowing.

Step 1 - Remove your A+ Coat with Tammy Taylor Conditioning Polish Remover.

Step 2 - Apply your Tammy Taylor Conditioning Cuticle Oil to your nails and cuticles and rub it in.

Step 3 - Buff your nails with your Tammy Taylor Clean Finish Buffing File.

Step 4 - Scrub your nails with your Tammy Taylor Plastic Manicure Brush and Peach Anti-Bacterial Soft Soak. (Scrub your nails every day to keep them clean and healthy).

Step 5 - Dry your nails thoroughly.

Step 6 - Apply 2 coats of your Tammy Taylor A+ Coat; this prevents yellowing so your nails stay Pink & White.

Keep your "Polished" Acrylic Nails Beautiful (Maintenance Routine) - (8 Steps):

Step 1 - Remove your polish with Tammy Taylor Conditioning Polish Remover. (Removes polish faster than any polish remover you have ever used).

Step 2 - Apply your Tammy Taylor Conditioning Cuticle Oil to your nails cuticles and rub it in.

Step 3 - Buff your nails with your Tammy Taylor Clean Finish Buffing File.

Step 4 - Scrub your nails with your Tammy Taylor Plastic Manicure Brush and Peach Anti-Bacterial Soft Soak. (Scrub your nails every day to keep them clean and healthy).

Step 5 - Dry your nails thoroughly.

Step 6 - Apply one coat of Tammy Taylor Ridgefiller. Ridgefiller will smooth out the acrylic nails, and fill in the space at the cuticle, where the acrylic nails have grown out.

Step 7 - Apply two coats of your favorite Tammy Taylor Nail Colour (Polish), DBP Free - Toluene Free - Formaldehyde Free Formula.

Step 8 - Apply your Tammy Taylor Super Dry Top Coat (a super shiny non-yellowing topcoat), DBP Free - Toluene Free - Formaldehyde Free Formula.

Keep Your Nails "Clean and Healthy" (Maintenance Routine) - (2 Steps):

Step 1- Scrub your nails with Tammy Taylor Peach Anti-Bacterial Soft Soak and a Tammy Taylor Plastic Manicure Brush to keep your nails clean.

Step 2- Apply 1 Drop of Tammy Taylor "Thymolize" underneath the nail free-edge, 1-3 times a day.

- This will keep the natural nail underneath the free-edge, white and the Thymolize will kill germs, which will help prevent fungus and keep the natural nails healthy.
