

Nail Technicians ALERT: Stay where you are!

Nail Technicians ALERT: **Stay where you are!**

Do not get restless and think that another career, trade or job is going to be better than what you already have right now. The **Beauty Business is exactly where you need to be.**

Throughout all of history, even when times got really tough women have always found the money for the things that make us feel pretty. And that is exactly what nails do: They make us feel pretty. It does not matter if we are younger, older, skinnier, heavier or more conservative or even a little wild:

Every one of us can have beautiful nails in less than 1 hour.

This makes our business very unique, because we can take "**ugly**" **nails** and make them "**beautiful**" **nails**, with no effort from the Client. All the Client has to do is sit and relax, and enjoy herself. She will instantly **feel prettier and happier even on a bad day.**

Tammy Taylor, CEO, Tammy Taylor Nails

When you have a trade or a special skill, you are usually an independent contractor; which means you set your own hours, and decide your own paycheck; and you **don't** have to **worry about getting "fired" or "laid-off"**.

Nails is the best career to be in right now, especially for working mom's, because you can make your own schedule and get paid every day.

Being a Nail Technician is a special skill, just like being an Electrician, Chiropractor, Mechanic, or a Seamstress. You will always have this skill, so **you can always make money.** Anytime you specialize in something that you do with your hands that takes expertise: **you will make money**, no matter what kind of an economy we have. Having a trade or a skill is more secure than just a job, because not everyone can do it, unless they have been trained and licensed.

So, the best career for you right now is the one you are in: Doing Nails!
Don't look around and get off track, settle in and get after it.
