2009

"I have always enjoyed doing Pedicures, and I want to share with you my Amazing 50 minute Spa Pedicure procedure. There are 3 things your Clients will always remember about your pedicures, and If you Focus on these 3 things, you will have more pedicure business than you can imagine."

Tammy Taylor

To give "**Great Pedicures**" and keep your Clients coming back, you need to Focus most of your time and energy on the 3 things the **Clients will remember** about your Pedicure:

#1 Are their feet **Smooth?**

#2 Was the **Massage** Memorable?

#3 Does their **Polish Last?**

A little note: Make sure you do not get carried away with the ambiance of a pedicure, that you forget about **the 3 things the Clients really want.**

To help you **Focus** on the **most important parts of a Spa Pedicure**, I have broken the Pedicure down into **3 Sections:**

Section One = 25 minutes

(Make the Feet "Smooth", Pay the most attention to the Callus, Cuticle & Dry Cracked Skin)

Steps 1 thru 12:

Steps 1 thru 6 (Both feet)

1. Sanitize
2. Remove Polish
3. File Toenails
4. Apply Cuticle Remover
5. **File the Callus while the feet are dry; this will remove more callus faster with less effort.**
6. Put feet into water, (while you are letting the feet soak make sure to Educate & Explain 2 or 3 of your Retail Products from your Display).
