Create Your Own Work Environment

- Some people like it calm
- Some people like it exciting
- Some people like a higher stress

Whatever environment helps you do your best is the environment you can create.

Now you might be thinking:

- My environment at work is determined by all those around me.
- But... It isn't; **that is "their" environment "not" yours.**

Our environment is directly related to HOW WE REACT to situations and HOW WE ACT towards others... "Not", how others act.

The greatest thing about creating our own environment is we "are" in control; which makes everything so much "more" fun, and we are "more" productive.

Have you ever been around someone who stays calm, cool and collected even in the craziest situations...

Or...

A person who has so much energy it feels like a whirlwind when they walk in the room...

Both have created their own environment.

Quote:...

*The remarkable thing is we have a choice everyday regarding the attitude we will embrace for that day. We cannot change our past... we cannot change the fact that people will act in a certain way. We cannot change the inevitable. The only thing we can do is play on the one string we have, and that is our attitude. **I am convinced that life is 10% what happens to me and 90% of how I react to it.** And so it is with you... we are in charge of our Attitudes."*

Author: Charles R. Swindoll

Figure out what your favorite most productive environment is, then start creating this environment today; with your every Action and every Reaction.

You will see "immediate" results, and you will start having more fun!
